Projects

Hospital Management Platform | Next.js • TypeScript • NestJS • Go • SQL • MongoDB • Redis • AWS • Grafana
Live: [link](#) | GitHub: [link](#)

- Architected a full-stack microservices platform with dual Next.js/TypeScript portals, JWT authentication, and RBAC for Doctor, patient, staff, and admin workflows.
- Built NestJS REST APIs for clinical workflows and a Go microservice for real-time ICU vitals streaming via WebSockets and automated PDF report generation.
- Designed a multi-database architecture using PostgreSQL, MongoDB, and Redis for healthcare records, consultation data, and high-speed caching.
- Deployed on AWS EC2 with Nginx and PM2, implementing Prometheus and Grafana for application and infrastructure monitoring.

QuizNest – Interactive Quiz App | React • Node.js • Express • MongoDB • JWT

Live: [link](#) | GitHub: [link](#)

- Built an AI-powered quiz platform with JWT authentication and dynamic quiz generation.

CineSapiens – Movie Discovery Platform | React • Movie API

Live: [link](#) | GitHub: [link](#)

- Developed a responsive movie discovery app with API integration, search, infinite scrolling, and trailer previews.
